Advanced Diploma in Supply Chain Management

Programme Description

The Advanced Diploma in Supply Chain Management is an online programme tailored for part-time students who want to advance their skills while continuing full-time work. Targeted at those with experience or qualifications in logistics or supply chain management, it provides both strategic and practical knowledge essential for success in this competitive field. Delivered by the Department of Marketing, Supply Chain, and Sport Management, the programme covers operational and strategic aspects of supply chains. This format enables students to manage studies alongside work, allowing immediate application of classroom concepts to their professional roles.

You will learn

- Procurement and supplier relationship management.
- Logistics and transportation management.
- Inventory control and optimisation strategies.
- Skills in demand forecasting and planning.
- Risk management in supply chain operations.
